

We are Impulse Audio Lab – a unique blend of highly talented sound designers and software developers crafting innovative solutions for the engineering and pro-audio world. We believe in the future of electric cars and the emotional power of interactive sound experiences.

We are looking for an

Frontend Developer (f/m/x)

for innovative audio projects

You are passionate about providing intuitive user interfaces and want to work on new products and solutions? The combination of audio and e-mobility sounds exciting to you? You want to solve complex problems through state-of-the-art software solutions and apply your knowledge and expertise to all aspects of the software development lifecycle? What are you waiting for?

These could be your future responsibilities

- Designing and implementing UI widgets and components for complex cross platform software projects
- Working on both client-oriented projects as well as our own growing product portfolio
- Sharing your experiences and knowledge with your colleagues

This should be you

- Educated to degree level or have equivalent experience in Computer Science, Information Technology or a related subject
- Have knowledge and understanding of the central Web Technologies (HTML, TS/JS, CSS)
- Worked with JavaScript Frameworks before (Angular, React, Svelte)
- Have an interest in developing customized technologies versus using existing solutions
- Able to work collaboratively, from requirements to acceptance using Git, merge requests and code reviews
- You are a team player and are also comfortable taking responsibility for your own projects

This could be a plus

- You already worked with Figma and enjoy translating designs into interactive experiences
- Understanding of usability principles and their application in UI design
- Interest in creating highly engaging and informative User Interfaces
- Experience building backend services
- Basic understanding of audio production software and related workflows

This is what you could get

- Flexible working hours, a competitive salary – reevaluated each year – and benefits
- Enjoying 30 days of paid vacation – because we love what we do, but we also love vacation
- Working hours being tracked transparently and any overtime being compensated – with time off
- An office-based, remote-friendly approach including opportunities to work from home and internationally
- A transparent compensation model that values collaboration over competition – designed by the team, for the team
- An enthusiastic team with diverse disciplines around audio and music who are keen on sharing their knowledge with you
- An agile working environment with flat hierarchies in a centrally located office space with fantastic rooftop (BBQs included)

>> At Impulse Audio Lab we value diversity, and treat our team and future team members based on merit, qualifications, competence and talent. We do not accept discrimination based on religion, ethnicity, national origin, gender, sexual orientation, age, marital status or disability status. We are committed to bringing together individuals from all different backgrounds and perspectives. At our company you will find an environment of deep respect. <<

We're excited to hearing from you!
