

Impulse Audio Lab is an audio company based in the heart of Munich. We are an interdisciplinary team of experts in interactive sound design and audio software development, working on innovative and pioneering projects focused on sound.

We are looking for a Frontend Developer (f/m/x) for innovative audio projects

You are an aesthetic-oriented individual with a keen eye for dynamic client-side interaction and you know how to translate user needs into software implementations using C/C++. You have already figured out how to implement the perfect gain control and know which dB scale works best. You are really motivated to create new things with like-minded people. What are you waiting for?

These could be your future responsibilities:

- Working on both client-oriented projects and our own growing product portfolio
- Design and implementation of modern and responsive frontend software
- Building graphical interfaces for complex audio applications
- Develop new ways of interacting with audio signals and control data
- Supporting and sharing your experiences & knowledge with your colleagues

This should be you:

- You are educated to degree level or have equivalent experience in a relevant field
- You have multiple years of experience in programming graphical user interfaces
- You are a C/C++ proficient developer with experience in implementing UI/UX
- You have frontend programming experience related to real-time audio applications, including frameworks such as Qt, JUCE or WPF/.NET and Audio Plug-in APIs
- You are able to work collaboratively, from requirements to acceptance and in the corresponding tool landscape (Git, unit testing, build systems, automation, debugging, etc)

This could be a plus:

- Production experience or other practical experience with music, such as playing an instrument
- Experience in other programming languages such as Python or JavaScript
- Knowledge of Max/MSP/Jitter/Gen

This is what you could get:

- Flexible working hours and a competitive salary
- A diverse portfolio of projects where you can show all your strengths, bring in your ideas and live your passion
- An enthusiastic team with diverse disciplines around audio and music who are keen on sharing their knowledge with you
- A great working environment and centrally located office space with a fantastic rooftop (BBQs included)
- Premium grade espresso

>> We realize we work in a masculine industry where significant parts of our society are underrepresented. We actively encourage applications from all parts of society, including women, ethnic minorities and LGBT+ applicants. At our company you will find an environment of respect. We strive to make our industry more inclusive. <<

We are looking forward to hearing from you!
